

# DINAT SAVBAN MAHMADSAEED

## OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization.

## EDUCATION

- **K.Y.K Memorial High School**  
2021  
10th Result  
78.16%
- **A.Y.Dadabhai Technical Institute**  
2024  
Diploma In Electrical Engineering  
CGPA-9.18

## PROJECTS

- **C.T And P.T. polarity test**
  1. C.T. polarity test: This test checks if there is a continuous path for current to flow in a circuit. It is typically performed using a multimeter set to the continuity mode. If the circuit is continuous, the meter will beep or show a zero reading; if it's broken, the meter will show no continuity.
  - 2.P.T. Polarity Test: This test checks if the electrical connections are made correctly in terms of positive and negative or live and neutral wiring. A polarity tester or a multimeter set to voltage mode can be used. Correct polarity ensures that the electrical devices operate safely and correctly.

## ACHIEVEMENTS & AWARDS

- 2nd Rank in 10th, 3rd Rank in diploma Electrical engineering

## CONTACT
