## Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.

## Experience

- 15 Days Summer internship is done in J.K.Cement Pvt Ltd**  
I have optimized cement manufacturing processes by enhancing raw material blending, kiln operations, clinker process and emissions control through advanced chemical engineering techniques.
- Final Semester internship of duration 3 month is done in Kiri Industries Ltd**  
This Internship has enhanced our technical as well as theoretical knowledge. We learned about dyeing process, drying and filtration operation, various equipments.

## Education

Course / Degree	School / University	Grade / Score	Year
B.E (Chemical Engineering)	Government engineering College, Bhuj	8.01 CGPA	2024
HSC	Crystal science school, Lunawada	56%	2020
SSC	Sarswati high school, Jorapura	80%	2018

## Skills

- Time management
- Smart & Hard work
- Microsoft Office :- MS word , MS Excel , MS PowerPoint

## Projects

- Extraction of Custard Apple seed oil to produce natural pesticide**  
Custard Apple seed oil is extracted and utilized to create a natural pesticide, leveraging its bioactive compounds for eco-friendly pest control. This method offers a sustainable alternative to synthetic pesticides, reducing environmental impact and promoting organic farming practices.

## Interests

- Traveling
- Photography
- Watching movie

## Languages

- English Gujarati Hindi
