Summary:-

Objective:

A technical management position within a manufacturing organization where I can apply my skills for managing the increase in yields, managing cost, and achieving standards of quality.

Experience- 17 years in various sectors like Paraffin oils, Latex & Rubber, Fines chemicals, Adhesive.

Assistant Production Manager
KLJ Petroplast Ltd, Jhagadia
March-2023

Company product: - Phthalic Anhydride Manufacturing.

Roles & Responsibility:-

- Monitor plant performance and control process parameters in DCS.
- Oxidation, Distillation and flaker unit handled in PA plant.
- Commissioning of MA/BA plant.
- Interacting with various service Departments regarding the necessities of the plant and minimize downtime.
- Troubleshoot any problems arising in day to day operations.
- Managing plant safety and reduced near-misses in the plant.
- Ensure 5S and good housekeeping in the plant.
- Ensuring that health and safety regulations are met.

Assistant Production Manager
Pidilite Industries Limited
Nov 2019 - Nov 2022 (3 Years)

Company product: - Adhesive Manufacturing.

Roles & Responsibility :-

- Advanced planning and scheduling Production, Loss minimization and efficient production of quality.
- Monitor plant performance and ensure monthly production targets are met.
- Part of supply chain management I am responsible for procurement of RM & PM to production to dispatch all activity scheduling.
- Interacting with various service Departments regarding the necessities of the plant and minimize downtime.
- Troubleshoot any problems arising in day to day operations.
- Managing plant safety and reduced near-misses in the plant.
- Ensure 5S and good housekeeping in the plant.
- Ensuring that health and safety regulations are met.
- Achievement: Convert P2P into Job work Unit, Production rate increased by 33 %, reduced waste.

Assistant Production Manager

Aarti Industries Ltd.

Apr 2018 - Oct 2019 (1 year 7 months)

Company Product: - DMU and Ammonium Sulfate.

Roles & Responsibility :-

- Production planning and control of manufacturing Di Methyl Urea & Ammonium Sulfate.
- Maintain standard process parameters & troubleshoot to get good quality products.
- Implemented ISO-9001 Standards.
- Investigate quality failure & implement corrective and preventive actions to avoid recurrence.
- Ensure interlock testing in the plant as per schedule & ensure interlocks are not by-passed unless urgent.
- Achievement: Reducing the melting time of urea & cycle time, Recycled waste.

Sr. Production Officer

Apcotex Industries Limited

Apr 2007 - Mar 2018 (11 years)

Company Product :- Rubber and latex.

Roles & Responsibility :-

- Production planning, monitoring & operating safe workplace.
- Achievement: Hot water recycle back to process for floating of rubber.
- Internal Auditor of IMS (Integrated Management System) in which ISO-9001 for quality and customer satisfaction, ISO-14001 (IER) for Environmental related, OHSAS-18001 (HIRA) for health and safety related.
- Ensure 5S and good housekeeping in the plant.
- Reducing agglomeration of rubber, Reduced burning time, Highest kaizens.

Graduate Trainee

Savita Oil Technologies

Apr 2006 - Mar 2007 (1 year)

Company Product :- Paraffin oil

Trainee Engineer

Unit Operations:- Crystallizer, Dryer, and Centrifuge, Scrubber, Batch Reactor, Creaming tank, Belt Filter, Expeller, and Expander, Vacuum Distillation, Distillation, Pumps, Heat exchanger, Flaker.

Unit Process: - Polymerization, Oxidation.

Chemicals Handled: - Ammonia, Urea, MMA, Butadiene, Styrene, O-xylene and Concentrated sulfuric acid.

Certificates: -

- * Certified IMS Internal Auditor. (Integrated Management System)
- * Certified First Aider.

Education:-

University of Mumbai
M.E, Chemical Engineering
2009 - 2013

Dr. Babasaheb Ambedkar Technological University
B.Tech, Petrochemical Engineering
1998 - 2005

Skills:-

SAP ERP • Total Productive Maintenance (TPM) • ISO 9001 • ISO 14001 • OHSAS 18001
