OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization.

EXPERIENCE

01/04/2023

- Present

ENGINEER

GARDEN SILK MILLS PRIVATE LIMITED

- Managed process equipment and criteria to achieve optimal production results
- Supervised and coordinated manpower to meet production targets
- Developed and implemented effective shift schedules to enhance productivity
- Monitored and controlled product quality through DCS systems
- Successfully troubleshoot process issues, minimizing downtime and improving overall efficiency
- Participated in plant shutdown and startup operations, ensuring smooth transitions

With this experience in the polymer industry, I possess a solid understanding of process engineering principles and a proven track record of driving production efficiency and product quality.

PROJECTS

Production of furfural from bagasse.

In this project we are try to produce the furfural from the bagasse because furfural is the good solvent in petroleum industry and production of resins. In feature it will be use as a fuel also

ACHIEVEMENTS & AWARDS

I am the member of INDIAN SOCIETY FOR TECHNICAL EDUCATION (ISTE) from 2016-2020

I am also the member of INDIAN INSTITUTE OF CHEMICAL ENGINEERING (IICHE) from 2017-2020
