Dis - Surat , Ta- Mandvi,  
karanj, Tanki Faliya

## SUMMARY:

Chemical Engineering student with a passion for applying theoretical knowledge to real-world applications. Seeking opportunities to enhance skills and contribute to innovative projects in the field.

## EDUCATION:

**M I P Sarvajani High School karanj**  
SSC - 63.83%

**2018 - 2019**

**Government Polytechnic Valsad**

**2024**

Diploma in Chemical Engineering

CGPA - 6.81 6th Semester

## EXPERIENCE:

**Vihita Industry Ltd Ankleshwar**

**17 Sep, 2022 - 1 Oct, 2022**

- Learn about Variable equipment like Boilers, Reactors, Condenser, Cooling tower, Separator, Filter press dryer.

**Sumeet Industry Ltd Karanj**

**27 July, 2023 - 30 Aug 2023**

Learn about

- Safety Measures and Work Permit System.
- Plant Utilities
- Manufacturing Process
- Application of polymer

## Chemical Engineering project in 6th semester:

### Aluminum oxide

- chemical production selection and market analysis
- selection of major process equipment and instrumentation
- material balance calculations for chemical processes
- Utilities in chemical manufacturing process
- site section and plant layout
- Economic assessment
- Material safety information and effective waste handling

## SKILLS:

Basic knowledge of Computer

Leadership

Quick Learner

Good listener
