WORK EXPERIENCE

MERN Stack Developer Digitech Miner

01/2023 - Present

Navsari, Gujarat

Job Responsibilities

- **User Interface Development:** Created intuitive and responsive user interfaces for both vendors and administrators, enhancing usability across multiple devices.
- **Authentication and Authorization:** Implemented secure user authentication and authorization mechanisms to ensure enhanced data protection.
- **Frontend Optimization:** Optimized frontend codebases to achieve faster loading times and improved overall website performance.
- **API Integration:** Integrated third-party APIs, particularly for payment gateways, to streamline transactions and provide a seamless user experience.
- **Responsive Design Implementation:** Ensured responsive design across all projects to enhance user experience on a wide range of devices.
- **RESTful API Development:** Developed and maintained RESTful APIs to support frontend functionalities and ensure smooth communication between client and server.
- **Error Handling:** Developed comprehensive error handling mechanisms to ensure system stability and reliability.
