### SUMMARY

Chemical Engineering graduate with a focus on going development in Chemical Industries. Being a Chemical Engineer is a role to play in Chemical Industry to troubleshoot the error in plants and, as well as towards environment to minimize the environmental issues and make the earth healthy

### Education

- B.Tech Chemical Engineering in Parul University with 6.46 CGPA with First Class ( 2021-2024)
- Perused Diploma Chemical Engineering in Valia Polytechnic in GTU with 6.88 (2017-2020)
- 10<sup>TH</sup> GRADE with 60.52 Percentile in Rungta Vidhiya Bhawan in GSEB

### Engineering projects

- B.Tech : Enhancing the heat exchanger efficiency by using combination of tube (straight and twisted)
- Diploma : Study and Research on manufacturing of sodium sulfate

### EXTRA – CURRICULARS

- Tech-Expo 2<sup>nd</sup> rank in Model Presentation 2024
- Ecology and Environment By NPTEL
- Participated in College sports events
- Attained college seminars for various fields

### SKILLS

- Basic Hazop studys
- Process design
- Team work
- Basic knowledge on MS Word, Excel and Powerpoint
- Communication

### HOBBIES

- Gyming , traveling , Video Gaming
-
