56.16

---

## Skills

- problem-solving skills, the ability to work in a team, a strong work ethic, flexibility and adaptability, communication skills, both verbal and written.

---

## Projects

- **BIOMETRIC Engine Starter**  
The main objective of this paper is to study the biometric security system. Normally available locks in the vehicles do not provide enough security. Traditional locks available in the vehicles can be easily broken. Thus, there is a need for more security options to be available for the vehicle which is unique and must be different from the traditional key locks.
